PROFESSIONAL SUMMARY

Results-driven professional with over 10 years of experience in financial services, specialising in credit risk, financial analysis, and operations within regulated environments.

Combines strong business and data expertise with hands-on software development experience, building responsive web applications and task management systems using HTML5, CSS3, JavaScript, Git, and GitHub.

Demonstrates the ability to work with systems, analyse data, and develop practical, user-focused technical solutions to real-world problems.

Selected for the AI-Augmented Full-Stack Developer Programme at Melsoft Academy (commencing April 2026), an intensive programme focused on full-stack development, AI integration, backend systems, cloud (AWS), and deployment of production-ready applications.
